RS035E

Consultez au préalable les consignes de sécurité.

IMPORTANT !

- Cet appareil est spécifiquement conçu pour atteindre de très hautes températures afin de permettre la formation rapide et parfaite de boucles.
- Laissez les bigoudis refroidir jusqu'à ce que leur application sur les cheveux soit confortable. Dans cas contraire, cela peut entraîner une gêne.
- Redoublez toujours d'attention pour éviter que les bigoudis entrent en contact direct avec le cuir chevelu.

INSTRUCTIONS D'UTILISATION

ATTENTION ! Zorg dat de surface chaude de l'appareil n'entre pas en contact direct avec la peau, en particulier les yeux, les oreilles, le visage et le cou.

- Placez l'appareil sur une surface plane et résistante à la chaleur. N'ouvrez pas le couvercle à ce moment-là.
- Turn the appliance on by sliding the switch to the 'I' position and turning the dial to select the desired heat setting.
- One's roller possède un point chaud sur sa partie supérieure. Ce voyant passe du rouge à blanc, indiquant que la température optimale a été atteinte et que les bigoudis sont prêts à être utilisés. Ouvrez le couvercle et commencez à coiffer les cheveux.
- Comb through the hair to remove any tangles. Divide in to sections and select a roller. The rollers can be used on damp or dry hair.
- Pincez les cheveux pour éliminer les noeuds éventuels. Séparez la chevelure en mèches et sélectionnez un bigoudi. Les bigoudis peuvent être utilisés sur des cheveux humides ou secs.

Remarque : la mise en marche de l'appareil active automatiquement la technologie ionique. La libération des ions par les supports produit un léger bourdonnement.

Commencez en plaçant les bigoudis sur le haut de la tête puis descendez le long du crâne vers la nuque.

Le centre du bigoudi est brûlant. Tenez les bigoudis par les extrémités pour enrôler les cheveux. Ne touchez pas les supports chauffants qui maintiennent les bigoudis.

Veillez à ce que la surface chaude de l'appareil n'entre pas en contact direct avec la peau, en particulier les oreilles, les yeux, le visage et le cou.

Prenez une mèche de cheveux de la largeur d'un bigoudi, et enroulez-la autour en partant de son extrémité tout en la maintenant tendue. Maintenez le bigoudi à un angle approprié par rapport au cuir chevelu pour garantir des boucles régulières.

Fixez le bigoudi avec l'une des pinces ou épingle métalliques fournies. Si vous utilisez des épingle métalliques, insérez l'épingle sur le bigoudi en traversant les cheveux vers l'extérieur.

Répétez l'opération pour chaque mèche jusqu'à ce que vous ayez utilisé tous les bigoudis.

Pour étendre l'appareil, faites coulisser l'interrupteur en position « 0 » et débranchez-le.

Une fois les bigoudis refroidis, retirez-les des cheveux. Maintenez délicatement le bigoudi d'une main et, de l'autre, retirez la pince ou l'épingle métallique. Déroulez le bigoudi doucement en prenant soin de ne pas tirer les cheveux.

Une fois le bigoudi enlevé, laissez les cheveux se remettre en place.

Laissez les cheveux refroidir complètement de manière à ce que la boucle « se fixe », puis coiffez-les à votre convenance.

Une fois l'appareil refroidi, replacez l'ensemble des pinces et bigoudis dans l'unité et refermez le couvercle.

Laissez l'appareil refroidir avant de le ranger.

Heat Settings

Select the desired heat setting by turning the dial accordingly. If you have delicate, fine, bleached or coloured hair, use the lower heat settings. For thicker hair, use the higher heat settings.

Securing Rollers

This appliance includes 20 rollers in 3 sizes; 6 Small (19mm), 6 Medium (26mm), 8 Large (32mm).

To secure the rollers in place, use either the super clips or the metal pins provided. There are three pin sizes to fit each size roller.

Auto Shut Off

This appliance has an automatic shut off feature for added safety. If the appliance is switched on for more than 72 minutes continuously, then it will automatically switch off. If you wish to continue using the appliance after this time, simply slide the on/off switch to "0" position, then slide the switch to "I" position to turn the power on.

Fixation des bigoudis

Cet appareil comprend 20 bigoudis de 3 tailles : 6 petits (19 mm), 6 moyens (26 mm) et 8 grands (32 mm).

Pour maintenir les bigoudis en place, utilisez les pinces spéciales ou les épingle métalliques fournies. Il existe trois tailles d'épingles, adaptées à la taille des bigoudis.

Arrêt automatique

Cet appareil a une fonction d'arrêt automatique pour plus de sécurité. Si l'appareil reste allumé en continu pendant plus de 72 minutes, il s'éteindra automatiquement. Si vous souhaitez continuer à utiliser l'appareil, mettez simplement l'interrupteur marche/arrêt en position « 0 », puis faites coulisser l'interrupteur en position « 1 » afin d'allumer l'appareil.

NETTOYAGE ET ENTRETIEN

Pour garder votre appareil dans le meilleur état possible, veuillez respecter les consignes ci-dessous :

- N'enroulez pas le cordon autour de l'appareil ; laissez-le plié sur le côté, grossièrement enroulé.
- N'utilisez pas l'appareil en tirant sur le cordon d'alimentation.
- Débranchez-le toujours après utilisation.
- Rangez toujours l'appareil capot fermé pour le protéger de la poussière.
- Débranchez toujours l'appareil lorsque vous ne l'utilisez pas ou avant de le nettoyer.
- Pour nettoyer les bigoudis, utilisez un chiffon imbibé d'un peu de détergent et frottez-les pour en retirer tout résidu.
- Essuyez les bigoudis avec une serviette et laissez-les sécher 1 à 2 heures avant de les réutiliser pour veiller à ce qu'ils soient complètement secs.
- Rangéz l'appareil hors de portée des enfants dans un endroit sûr et sec.

ENGLISH

RS035E

Read the safety instructions first.

IMPORTANT!

- This appliance has been specifically designed to reach very high temperatures in order to produce fast and perfect curl formation.
- Allow the rollers to cool until they feel comfortable when applying into the hair. Failure to do so may lead to discomfort.
- Always take extra care to avoid the rollers coming into direct contact with the scalp.

HOW TO USE

WARNING! Take care to avoid the hot surface of the appliance coming into direct contact with the skin, in particular the eyes, face and neck.

- Place the appliance on a level, heatproof surface. Do not open the lid at this time.
- Turn the appliance on by sliding the switch to the 'I' position and turning the dial to select the desired heat setting.
- One's roller has a 'heat ready' dot on top. The dot will turn from red to white, indicating optimum temperature has been reached and the rollers are ready to use. Open the lid and begin to style the hair.
- Comb through the hair to remove any tangles. Divide in to sections and select a roller. The rollers can be used on damp or dry hair.
- Note: Turning the appliance will automatically activate the ionic technology. The release of the ions from the ports produces a slight buzzing noise.

Remark : la mise en marche de l'appareil active automatiquement la technologie ionique. La libération des ions par les supports produit un léger bourdonnement.

When the rollers are hot, hold the rollers by the ends to roll the hair. The centre of the roller will be hot. Hold the rollers by the ends to roll the hair.

Begin by placing the rollers on the head and work down towards the neck of the neck.
